

RENTALiQ

The ultimate solution for **managing** and **optimizing** the safety, productivity and visibility of your rental fleet.

Rental iQ is designed to optimize the monitoring of equipment and vehicle fleets, regardless of make or model. With over 20 years of industry experience, we provide comprehensive support and cutting-edge technology to meet the evolving needs of fleet management.

About Rental iQ

- NEW! Optional QR Code for direct to dealer maintenance and vehicle status monitoring
- Precise GPS tracking and geofencing
- Optional RFID swipe card and PIN access
- Prevents unauthorized access or usage outside rental terms
- Proactive maintenance scheduling
- 4G/LTE data connectivity
- 24/7 global support
- Scheduled immobilization
- Basic linear impact detection

Rental iQ can be fitted to almost any type of industrial vehicle or piece of equipment regardless of make or model.

“Yes - if it has a battery - it will work!”

Our precise GPS location tracking also provides alerts if your assets move outside their predefined Geofence. Get immediate access to asset location, usage, and condition enabling informed decision making and thus increasing profitability.

The Rental iQ alert system even notifies you when vehicles are being used outside of rental terms, helping to prevent unauthorized usage and potential theft or losses.
